DENTISTRY. DENTAL NOTICE.

CHEW LANGE'S PLUGS, The Great Tobacca An-

Dr. J. H. BITZER, SURGEON DENTIST, Office 713 Cameron street, opposite

Christ Christ.

GAS ADMINISTERED.

Having removed my Dental office to the above address, I wish to thank my friends and patients for past favors, and announce to them and the public generally that I am prepared to perform all operations pertaining to Dantistry in the most approved manner, and solicit a share of their patronage. I will make a specialty of PAINLESS EXTRACTING and making ARTIFICIAL TEETH.

ING and making ARTIFICIAL TEETH.

and call particular attention to my local anamal call particular attention to my local anamal call particular attention. and call particular attention to my local an-asthetic, which I have used so successfully the past year extracting teeth painlessly.

No extra charge for local amesthetic.

J. H. BITZER, D. D. S. jan 19 Im

## THE PRICE \$

A8666666666666

IS IMPORTANT-

Still it is not the chief feature. Poor Dentistry is infinitely worse than none. We solicit your patronage solely on the merit of our work. That the prices are low work. That the prices are low is merely incidental and due to superior facilities and the skill which produces rapidity. In Dentistry time is money, and if our experts, with every approved appliance, can do work QUICKER they can naturally do it CHEAPER than operators with less skill and poorer equipment. That they can do it with less pain follows, as a matter of course,

VERY BEST TEETH, \$8.00.

[Entered at the Postoffice Alexandria, Virginia, as second-class matter.]

"DE LIFTIN' FLOOD TIDE."-"Queer enough are some of the notions held by

the dwellers in remote districts by the sea in North Carolina," said a govern-Charleston, The vessel could be trim- sity go outside we tried to make our destination by way of the narrow, devious hannel of Core Sound. The vessel bumped along for twenty-five or thirty miles and at last grounded solidly. While we backed and heaved in futile endeavor to get the schooner afloat, an old negro in a dugout canoe came up and looked curiously on.

it is sure that we had to wait for 'de liftin' tide,' when the vessel came off the shoal without difficulty.

"Pursuing our way the following day through the same shoal waters, we gradually came up with a small schooner whose patched and small schooner.

ually came up with a small schooner whose patched and dingy sails were doubled-reefed, although the wind was very light. I hailed her in passing with the rather presumptuous inquiry:
"Why don't you turn out those reefs

and make more sail?"

Back came the answer in a lackadaisical twang from a goat-bearded, slouchy man, who was straddling the tiller

"'Why, yer durned fool, that ain't half wind enough fur what sail I've got

COAL PRODUCTION AND PRICES .- The production of bituminous coal in the United States is now double that of anthracite. In 1892 there were 110,000,-000 tons of bituminous coal mined, against 52,000,000 tons of anthracite. The area of production of soft coal is Extracting 25c with gas, \$0.50 The area of production of soft coal is ten times greater than the area of production of hard coal. In the form of coke, bituminous coal is constantly encroaching upon the field of anthracite production. In the light of such facts and figures, the terrific outcry against the attempt to extort unreasonable prices for anthracite coal fails to im-

press persons who have taken the trou-ble to think. The security against extortion lies in the competition of the cheaper and more abundant fuel. Bituminous coal will soon take the place of all anthracite for manufacturing purposes, except in localities close to the anthracite mines. The introduction of the semianthracite coal of Nova Scotia and the repeal of the tariff duty on coal would further assist to steady prices and de-feat any attempt to control the market to the injury of consumers. The eoal

business, like every other, can only be carried on successfully when it yields a living profit to the producer.

\*The best insurance for coal consumers lies in the pulling down of tariff bar-riers and the encouragement of every effort to bring the producer and the consumer nearer together by the elimination of middlemen and the cutting down of the cost of transportation and handling. The attempt to regulate prices by acts of the legislature, as proposed in New York, is a piece of whimsical folly. The remedy would be worse than the malady.-Phila. Record.

THE SAFEST PLACE,-A person, apprehen sive of danger from lightning, happening, during the time of the thunder to be in a nonse not secured by conductors, would do well to avoid sitting near the chimney, near a looking-glass, or any gilt picture or wainscot, says the 'Family Doctor.' The safest place is in the middle of the room, so it be not under a metal lustre suspended by a chain, sitting on one chair and laying the feet up in another. It is still safer to bring two or three mattresses or beds in the middle of the room, and, folding them up double, place the chair upon them; for those not being so good conductors as the walls, the lightning will not choose an interrupted course through the air of the room and the bedding when it can go through a continued and better conductor—the wall. But, when it can be had, a hammock or swinging bed, suspended by silk cords equally distant from the wall on every side, and from the ceiling and floor above and below, affords the safest situation a person can have in any room whatever and one which indeed may be deemed quite free from danger of any stroke of lightning. well to avoid sitting near the chimney, near
